Pastor's Devotion

Have you ever looked at a landscape and wondered, "how is it possible that our God could have created something so big and beautiful?" I know I do, and quite often! Our God has shown us His amazing, creative hand! He thought up the heavens, the seas, the earth, and all creatures! I am often captivated by sunsets, especially the ones that seem to stretch across the sky.

God's story for us is so big, and so mighty. The thought that He would have created a world so perfect, and that when sin came into the world, He had it in mind to send His only begotten Son, that whoever believes in Him would not perish but have eternal life, this is something that no one could dream up! We see just how deep God's love is for us. In fact, it is too big to fit inside our brains! And yet, I pray for each one of you, as St. Paul prayed for the Ephesians many years ago, that we would grasp how wide and long and high and deep is the love of Christ, and to know this love that surpasses knowledge. God bless you as you continue to grow and learn of His love!

"Lord Jesus, thank you for the greatness of your story! You have done things I could never imagine. Help me to trust in Your Word, to listen to and follow you always."
